

Chocolate Cake in a Mug

adapted from www.tablefortwoblog.com/the-moistest-chocolate-mug-cake

Ingredients

1/4 cup flour
2 TB cocoa
1/4 tspn baking powder
2-3 TB sugar
1/8 tspn salt
5 TB water
2 TB vegetable oil

Method

1. Combine dry ingredients.
2. Add in water and oil, and mix well, until there are no clumps.
3. Pour into large microwave safe mug. (You want to leave enough room for it to rise without spilling over)
4. Microwave for 70 seconds on high. (Because microwaves vary, you may need to adjust the time.)

Optional: Drop a dollop of Nutella in the middle of the batter before baking.
